

IMAZIGARD CANISTERS

IMAZIGARD CANISTERS is a product containing a blend of two proven biocidal molecules. An antisporeulant and antifungal, combined with a molecule which exhibits exceptional broad-spectrum effectiveness against yeasts, molds, bacteria and viruses, including Coronavirus, makes Imazigard an exceptional antibacterial and sanitizer in areas of the food industry and agriculture, requiring high levels of bacterial control or preservation.

The product as supplied can be used as an atomization/fogging type application

Presentation :

150 ml can fogger - 50m^3

500 ml can fogger - 150m^3

It is a unique total release atomized sanitizer, which will disperse the ingredients in micron particles size allowing for a large surface area coverage making it extremely effective.

This replaces the traditional smoke generators with a far superior and balanced product, application areas are wide ranging, the product is safe and can be used in situ.

Areas of Use:

Poultry

Hatcheries

Chick holding rooms and transport

Breeder Nest Boxes spray

Breeder House fumigation

Broiler houses – preplacement fumigation

Broiler houses – post chick placement

Microbiology Laboratories

Fruit Processing

Fresh fruit Packhouse and cold storage rooms

Dried Fruit production and storage areas

Dairies

- Milk Sterilisation of fresh milk and yogurt tanks
Cold room and delivery truck
- Cheese Sterilisation of Milk storage tanks
Production areas and process vats
Finished cheese holding rooms and cold storage areas.

Wineries

- Sanitation of tanks and Transport tankers
- Cellars and cold storage rooms

Breweries

- Sanitation of tanks and Transport tankers
- Cellars and cold storage rooms

Juice Factories

- Sanitation of tanks and Transport tankers
- Cellars and cold storage rooms

Bakeries

- Sanitation of proving areas
- Transport vehicles

Hospitality Industry

- Sanitation of kitchen and restaurants at closure

Veterinary

- Sanitation of Vet waiting rooms at closure
- Kennels and catteries
- Operating rooms
- Surface sanitation

Medical

- Sanitation of Doctor Rooms at closure
- Emergency Rooms
- ICU Units and Operating theatres.
- Surface sanitation
- Hospital Ventilation

Agriculture

Green Houses - commercial and garden - can be used without removing plants.

Seed storage areas

Inside delivery and farm Vehicles cabs and loading area

General

Transport Tankers

Cold storage containers

Tanks and Vats

Cold Storage Rooms

Basements and Cellars

Disinfection and fogging of large buildings and commercial operations

IMAZIGARD can also be supplied in a concentrated bulk form, for use via commercial fogging apparatus. This allows for the economical sanitation of large spaces such as retail outlets, shopping malls, office blocks banks and other large buildings

The product as supplied is safe to use under all management systems.

Imazigard is non-toxic to both animals and humans, and does not irritate the skin and eyes

Imazigard is non-corrosive and can be used on all surfaces and materials

IMAZIGARD has proven effectiveness against all commercially important yeasts, molds, bacteria and viruses.
